Gameboy VJ

24th March 2007

Last night was the official launch of Social Hacking and as part of it, I along with some others VJ'ed with the [Mikro Orchestra project](#). The previous day they ran a workshop on how to convert a Game Boy Advance into a VJ console and use their software [SQJ](#) to produce visuals. We then spent the rest of the day practising for the performance last night. They also ran a workshop on how to use [Nanoloop](#) and the people who did that did the music.
