## GAMEBOYZZ ORCHESTRA PROJECT

The six headed gameboyzz orchestra project comes from Wroclaw in Poland. The unusually weak (archaic) technical parameters of the GameBoy console were a challenge for its members and became the reason for the foundation of the gameboyzz orchestra. The idea behind the project is the creation of a new sound space on the grounds of sounds generated live with the GameBoy Color console. The employed software is written specifically for the GameBoy console [trackers, sequencers, drum machines, etc.; sounds generated live and games]. But the Orchestra is not an orthodox group and utilizes the latest technologies along with other retro-gadgets.
